

PartQuest Documentation Home

The screenshot shows the PartQuest website interface. At the top, there is a navigation bar with the PartQuest logo, a search bar with the placeholder text "Search by Part Number or Keyword", and a "Search" button. Below the search bar, there are filters for "RoHS Compliant", "Lead Free", and "In Stock". The main content area features a "Welcome to PartQuest" section with a brief description of the service. A large 3D visualization of various electronic components is displayed. Below this, there are three buttons: "Create Part", "Create Symbol", and "Create Footprint". A "Community" section is also visible, with a "Visit the Community" button. On the right side, there are two promotional cards: "My Parts & Projects" and "Free PCB Design Assessment".

PartQuest is a search engine designed to provide an easy way to search for parts in the Digi-Key database and incorporate them into Mentor Graphics PCB design tools. With PartQuest, you can

- Quickly and easily search for parts
- Organize parts from search into custom project folders
- Download part property data for use in Mentor Graphics PCB design tools
- Download symbol and footprint information from SymacSys
- Link to a [Dropbox](#) account to save part data for later use

.We'd really like to obtain your feedback, so please login & select **Feedback** at the top right of the Partquest home page. An email will open where you can enter your feedback.
